PLATO® Web Learning Network
Subscribe to Savings, Simplicity, and Convenience.

The Internet-based PLATO® Web Learning Network (PWLN) delivers award-winning PLATO® instructional courseware, assessments, and curriculum management 24 hours a day, 7 days a week. Available via subscription, PWLN offers ready-made and customizable instruction that provides real learning and real results—anytime, anywhere.

How can subscribing to web-based PWLN benefit you and your students?

**Reduced Internal IT Costs.** Eliminate the need for many IT-related functions, including server maintenance and management, software installation, and data backup. All software, infrastructure, and data is hosted by PLATO Learning and is included in the cost of subscription.

**Guaranteed Data Safety and Security.** Rest assured that your data is regularly backed-up and stored safely on our servers, eliminating the risk of critical data loss.

**Instant Upgrades.** Ensure that you have the latest and greatest functionality and instructional content. All updates to the management system, hot fixes, and content updates are added to your account instantly, without action on your part.

**Anytime, Anywhere Access.** Accommodate students’ diverse scheduling needs with Internet-based courseware accessible 24/7 with no downtime. Online self-help resources enable instructors and students to get the help they need, when they need it.

In addition to these great subscription benefits, PWLN provides:

**PLATO Instructional Content.** PWLN delivers more than 5,000 hours of basic- to advanced-level instruction in reading, writing, math, science, social studies, and life and work skills.

**Learning Resource Tools.** Instructors have the ability to individualize learning paths, assign off-line activities, and incorporate web links in order to close learner skill gaps.

**Detailed Reports.** Student data is recorded to track individual and class performance, providing teachers and administrators with a valuable vehicle to monitor progress and demonstrate results.
Administrator Edition:

1. Use the Learning Resource Tools to individualize instruction with custom learning paths, off-line activities, and links to educational web sites.

2. Monitor and generate performance reports to track on-site and remote learners.

Learner Edition:

1. Students can view assignments, see their individual progress, and launch PLATO courseware.

2. Students learn and progress at their own pace using the online library of PLATO courseware.
